

Woodford-cum-Membris Bowls Club

Environmental Policy Statement

Our commitment

Woodford-cum-Membris Bowls Club recognises that its activities inevitably have an impact on the environment. Consequently, the Club embraces the principles of sustainable development and is committed to managing its activities with consideration for the environment and to a process of continual environmental improvement and pollution prevention. This Statement provides a framework for developing and reviewing environmental objectives.

Our aims

Minimise and conserve

It is the policy of Woodford-cum-Membris Bowls Club to minimise any potentially significant impacts the Club has on the environment. The Club actively encourages the use of energy efficiency and promotes waste minimisation and environmentally friendly waste disposal as well as identifying opportunities to reduce the resources it consumes including energy, water and other natural resources. Where practicable, the Club shall reuse materials, recycle waste and procure recycled products.

Comply

The Club endeavours to comply with all relevant environmental legislation and regulations and treats all as the minimum standard and seek to exceed them wherever possible. To enable this, the Club will set targets and objectives for environmental performance and measure and review these regularly to demonstrate its continued commitment to environmental performance improvement.

Involve and communicate

The Club discourages avoidable travel and encourages the use of car sharing. It expects its suppliers to demonstrate good environmental, social and ethical management practices and engages with them regularly to identify opportunities for improvement. Furthermore, the Club shall and communicate its policy to members and provide the necessary training and resources to support the implementation of its policy.

The Club's Environmental Officer is:

Tom Rigby
